

ISHA VATS

Data Analyst | SQL | Advanced Excel | Database Management

ivats.nic@gmail.com | 8700300801 | Ghaziabad, India | Portfolio

PROFILE

Data Analyst with hands-on project experience in **SQL**, **Advanced Excel**, and relational database management, backed by a **BCA** and **MCA**. Skilled in cleaning and validating raw datasets, building pivot-table and SQL-based reports, and translating data into clear business insights. Currently building **Power BI** and **Python** skills to move into end-to-end analytics workflows, from data extraction through visualization.

SKILLS

Data & Analytics	Advanced Excel (Pivot Tables, VLOOKUP, SUMIF, COUNTIF, Conditional Formatting, Data Validation), SQL (MySQL Workbench), Data Analysis & Reporting , Power BI (in progress)
Database	MySQL , Database Management , Relational Database Design , ER Diagrams
Programming	Java (Spring Boot), Python (basics, learning for analytics), HTML/CSS , JavaScript

PROJECTS

Food2Go Business Analysis | *Microsoft Excel*

- Cleaned and validated a multi-sheet operational dataset of **1,000+** records, identifying and correcting data quality issues (duplicates, blanks, formatting errors) prior to analysis.
- Built interactive Pivot Table dashboards to track order volume, revenue by category, and outlet performance for operational reporting.
- Applied **VLOOKUP**, **SUMIF**, **COUNTIF**, and Conditional Formatting to automate recurring business reports, cutting manual reporting effort.

Netflix Data Analysis | *MySQL Workbench*

- Queried and analyzed a Netflix content dataset using **JOINS**, **GROUP BY**, **ORDER BY**, and aggregate functions to surface trends by genre, country, and release year.
- Performed data validation and integrity checks across the dataset of **1000+** records to ensure reporting accuracy before analysis.
- Summarized findings into a structured SQL report highlighting key content trends for stakeholder review.

Employee Management Database | *MySQL Workbench*

- Imported and managed a relational employee database including schema design.
- Implemented full **CRUD** operations and wrote optimized SQL queries using **joins**, **aggregate functions**, and views to retrieve employee records efficiently.

Food Ordering App | *Spring Boot, MySQL, Angular*

- Built a full-stack food ordering application, designing the backend database schema and implementing CRUD operations for order management.
- Integrated Angular frontend with the Spring Boot backend via REST APIs for end-to-end order processing.

EDUCATION

Master of Computer Application (MCA) | *IGNOU*

2023 - 2026

Bachelor of Computer Application (BCA) | *Chaudhary Charan Singh University (Vidyavati Mukund Lal Girls College)*

2019 - 2022

CERTIFICATIONS

- SQL for Data Analytics - Internshala
- Advanced Excel with AI - Internshala
